Our Drink Awards are still new - 2021 was their first year. We asked our eats & drinks writers, and the planners of most local beer fests and the bartenders at a number of local craft-focused pubs, but the biggest contributors to these nominations were the brewers themselves. We asked each brewery to let us know their three favorites, and if they felt like it, three favorites from among the work of other locals. Amazingly, brewers were at least as likely to recommend others as to tout their own stuff. The sense of community and respect for other brewers was really remarkable, and it was clear that for most in this local industry, the shared love of great beer or spirits forged a bond stronger than any competition.

The brewers, distillers and trucks serving at this year's event include:

RI Spirits

Buttonwoods Brewery

Narragansett Brewery

Beer on Earth

Six Pack Brewing

Whalers

Union Station

Memphis Kelle
