

Innovate!

Ocean State Innotech Fest is taking place on April 23 at the WaterFire Arts Center. The fest operates from a belief that technology disrupts industry — and further, that that's a good thing. Attendees can learn about technology in industries from gaming to medicine alongside fellow tech lovers, innovators and entrepreneurs. This event is the perfect opportunity for anyone interested in being on the cutting edge of what is happening in Rhode Island to network with like-minded individuals.
