MOTIF FILM SCREENING SERIES

Motif and Maravilla celebrate art created outside the mainstream by independent artists with something to say.

This screening series was created to help bring locally made and ground breaking to the eyeballs and brains of more viewers, and to provide a forum for discussion of both the work and the themes it raises.

The official selections will be screened over the summer, divided into thematic sessions. Screenings will take place on the **second Wednesday of each month**, at R1 Entertainment Center. Screenings will be 6:30 - 8:30.

During the summer, starting during our June 8th screening, screenings will take place **outdoors at DUSK in Providence**. Screenings are free, with food and drink and popcorn available for purchase. Current COVID protocols will be followed. These dusk at Dusk screenings will start at ... well, dusk.
