

Local nightlife: Music Club Guide

If you're new to little Rhody, you'll find there's an abundance of local nightlife - but around here, it's sometimes hard to figure out where to find it. Google maps can tell you the nearest bar - here's a list of places that might be worth going a little further for. We tried to curate for places that are likely to have live music. No place does that every night, but some more than others.
