

# Summer Guide 2021 Cover: Zoe Anderson

This is the third cover that local illustrator **Zoe Anderson** created for Motif, and we can't wait for her vision of someone opening the door onto a vibrant summer after a long time in isolation to become a reality. We asked Zoe to put herself into the scene. Where would she go first? "I would want to see if there were any nature trails in the background past the pond," she said. "I'm excited to get out into the forest now that the weather is warmer."
